EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Richard Jenkins on July 7, 2003.

3. The application has been amended as follows:

Claim 14. Process in accordance with claim [13] 1, characterized in that the [carbon disulphide content of the solution is] wet sulphide process in Step (g) is carried out in a solution containing between 150 and 250 g/l carbon disulphide and [the sodium hydroxide content is] between 250 and 350 g/l sodium hydroxide.

Claim 15. Process in accordance with claim [14] 1, characterized in that the [carbon disulphide content of the solution is] wet sulphide process in Step (g) is carried out in a solution containing between 180 and 210 g/l carbon disulphide and [the sodium hydroxide content is] between 280 and 320 g/l sodium hydroxide.

Reasons for Allowance

4. The Amendment After Final, submitted on June 16, 2003, has been entered. Claims 1, 4, 6-8, 11, 16-18, 20-23, 25, 26, 28, 31-33, 43, 44, and 56-59 have been amended, while claims 13, 22, 60, and 61 have been cancelled. Additionally, the specification has been amended as

Art Unit: 1771

requested. The pending claims are 1-12, 14-21, 23-60, and 62, with claims 1, 43, and 44 being independent claims.

5. The Amendment After Final is sufficient to withdraw the objection to the specification as set forth in section 4 of the last Office Action. Additionally, the cancellation of claims 13, 60, and 61 renders moot the 112, 2nd rejection of said claims, as set forth in section 7 of the last Office Action.

6. The amendments to claims 43 and 44 are sufficient to withdraw the 112, 2nd rejection of said claims, as set forth in section 8 of the last Office Action. Claims 43 and 44 were previously indicated as containing allowable subject matter in section 21 of the last Office Action. Hence, claims 43 and 44 are now allowed.

7. Furthermore, the amendment to claim 1 is sufficient to withdraw the prior art rejections set forth in sections 9-13 of the last Office Action. In particular, applicant has amended claim 1 to recite the active method steps of “selecting shoots no older than 1 year of deciduous trees or conifers” and “deriving wood pulp from the shoots.” The prior art does not teach or fairly suggest the selection of the presently claimed shoots, nor does the prior art teach the cellulose fiber structure which results from said selection of shoots (i.e., “fibre-parallel lamellae with spacing between 1 nm and 5 μ m”). Thus, claims 1-12, 16-21, 23-42, 45-60, and 62 are allowed.

8. The above examiner’s amendment is made to correct the subject matter of claims 14 and 15, which depended from cancelled claim 13. With said examiner’s amendment, claims 14 and 15 are also in condition for allowance.

9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
